RE: Confirmation of the Visit by Prof. Kitcharoen to the Chair for Fish Diseases and Fisheries Biology, LMU-Munich Faculty of Veterinary Medicine,

Dear Prof. Kitcharoen,

It is of my great pleasure that you have accepted the invitation to visit the Chair of Fish Diseases and Fisheries Biology at Ludwig-Maximilians-University Munich Faculty of Veterinary Medicine from 20-21.12.2021.

As part of collaborative efforts to connect the Faculty of Fisheries Technology and Aquatic Resources, Maejo University with the activities of the Chair, our main objective was to discuss with you the ideas about the future collaborations. The meeting was further extended and we shared some information about current research in selective breeding program of Nile Tilapia with Thai scholars.

We thank you for your visit and look forward to further communication and development of ideas about future collaborative activities.

With best regards,

Univ. Prof. Dr. Dušan Palić,
